User Guide for the DEN Paper Template

Krisna GUpta [*,1] Second Author [2] and Third Author[3]

[1]Dewan Ekonomi Nasional
[2]Institution-2, City, Country
[3]Institution-3, City, Country
*Corresponding author: correspondence@email.domain

Abstract
An abstract summarizes, in one paragraph of 300 words or fewer, the major aspects of the entire paper. It should include: 1) the overall purpose of the study and the research problem you investigated; 2) the basic design of your research approach; 3) major findings as a result of your analysis; and 4) a brief summary of your interpretations and conclusions.

Keywords: keyword; keyword-two; keyword number three

JEL Classification: C22, O47

> **Catatan**
>
> DEN Working Papers describe research in progress by the author(s) and are published to elicit comments and to encourage debate. The views expressed in DEN Working Papers are those of the author(s) and do not necessarily represent the views of the Dewan Ekonomi Nasional.

1. User Guide for This Template

Use this template with Quarto markdown (qmd). For more information on Quarto, visit https://quarto.org here.

1.1 Title

The title should be in Title Case. Keep it concise and informative, ideally within 12 words. Avoid abbreviations in the title unless they are widely recognized.

1.2 References

Add your bibliography entries to `ref.bib` and cite them using standard Quarto citation syntax. Here is an example citation on diamond open access (Fuchs dan Sandoval 2013). According to Fuchs dan Sandoval (2013), diamond open access model is amazing.

1.2.1 Regulations (Peraturan)

Do not cite regulations with `[@key]`. In the text, refer to a regulation by its formal name, e.g., Peraturan Pemerintah (PP) Nomor 28 Tahun 2025 tentang Penyelenggaraan Perizinan Berusaha Berba-

© 2026 by the authors. This is an Open Access article, distributed under the terms of the Creative Commons Attribution 4.0 International (CC BY 4.0) licence (https://creativecommons.org/licenses/by/4.0/)

sis Risiko or Undang-Undang (UU) Nomor 17 Tahun 2003 tentang Keuangan Negara. Then add its `ref.bib` entry and list its key under `nocite` in the YAML header so it appears in the bibliography:

```
nocite: |
  @pp28-2025, @uu17-2003, @permenkeu-key-three
```

Write regulation entries in `ref.bib` as `@misc`, with the issuing body as a corporate author wrapped in double braces (see `pp28-2025` and `uu17-2003` in `ref.bib`).

1.3 Footnotes

Use footnotes sparingly. They should be used for additional information that is not essential to the main text.[1]

1.4 Tables

Use standard markdown tables or Quarto's table syntax. Tabel 1 shows an example.

Tabel 1. Example table

Parameter	Notation	Remarks
name	-	engine common identifier
manufacture	-	name of the manufacturer
bpr	λ	bypass ratio
pr	-	pressure ratio
thrust	T_0	maximum static thrust

1.5 Figures

Use standard Quarto figure syntax with `![caption](path){#fig-id width=X%}`. Place images in a `fig/` folder.

1.6 Equations

Use standard LaTeX equation syntax. Persamaan 1 shows an example equation.

$$\rho \frac{\mathrm{D}\mathbf{u}}{\mathrm{D}t} = -\nabla p + \nabla \cdot \boldsymbol{\tau} + \rho \mathbf{g} \tag{1}$$

2. Sections

Organize your paper using standard markdown headings.

Some standard sections are:

- Introduction
- Methods
- Results
- Discussion
- Conclusion

[1] This is an example footnote.

Acknowledgement

Include your acknowledgements in this section.

Funding Statement

When applicable, please specify the funding information for this research.

Reproducibility Statement

Mandatory section!

Information on how to reproduce this research, including access to: 1) source code related to the research, 2) source code for the figures, 3) source code/data for the tables when applicable.
